About the Speaker

Kristy Anderson is a licensed Naturopathic Medical Doctor in the state of Arizona and is currently the Medical Advisor of Bioregulatory

Medicine for Heel USA serving at a national and international level for Heel with medical education and medical literature development. She is a published author on Homotoxicology in the international journal, Journal of Biomedical Therapy and the journal, Explore, as well as lecturing nationally & internationally on Bioregulatory Medicine. Dr. Anderson completed NIH grant-funded research on alternative oncology treatments while in medical school and believes in focusing on combining the best of western medicine and naturopathic medicine for the benefit of the patient. She is a graduate of the Southwest College of Naturopathic Medicine and an active member of the American Association of Naturopathic Physicians (AANP) and the American College for Advancement of Medicine (ACAM).
